

EXERCISE – 7

Question

Execute and display the results of the following commands in Kali Linux Operating System:

1. cd command
2. cp command
3. ls command

Aim

To execute and display the results of the cd, cp, and ls commands in Kali Linux.

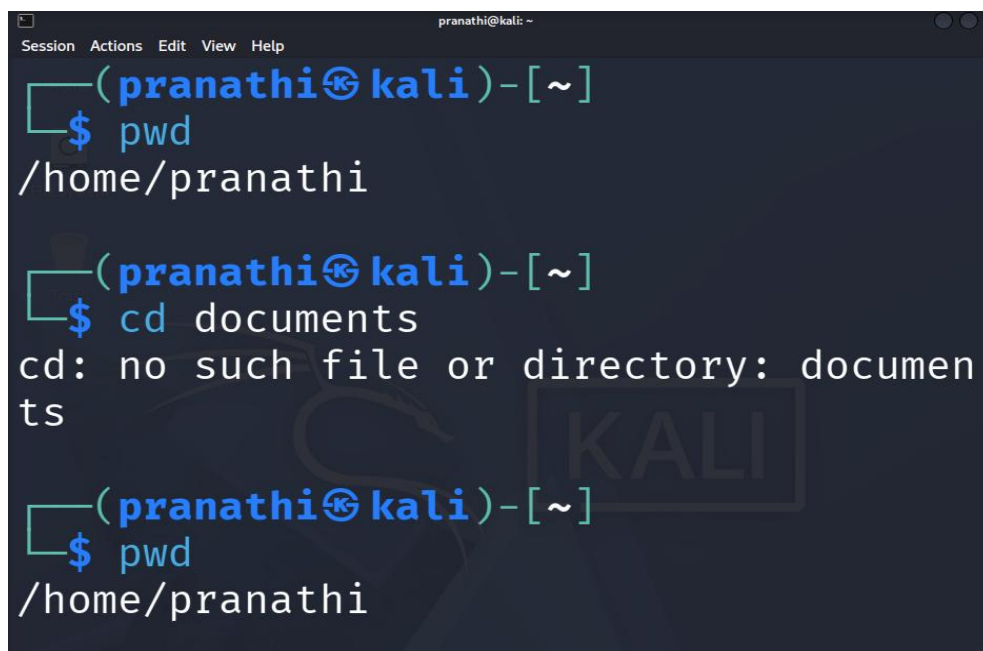

1. CD COMMAND

Command:

cd Documents

Use:

The cd command is used to change the current working directory.

A terminal window titled 'pranathi@kali: ~' with a menu bar (Session, Actions, Edit, View, Help). The terminal shows three command sessions. In the first, 'pwd' is entered and the output is '/home/pranathi'. In the second, 'cd documents' is entered and the output is 'cd: no such file or directory: documents'. In the third, 'pwd' is entered and the output is '/home/pranathi'. The prompt is '(pranathi@kali)-[~]' and the user input is preceded by '\$'.

```
(pranathi@kali)-[~]  
$ pwd  
/home/pranathi  
  
(pranathi@kali)-[~]  
$ cd documents  
cd: no such file or directory: documents  
  
(pranathi@kali)-[~]  
$ pwd  
/home/pranathi
```

2. CP COMMAND

Command:

cp original.txt copy.txt

Use:

The cp command is used to copy files and directories.

```

#New
pranathi@kali:~$ touch original.txt

#Display
pranathi@kali:~$ cp original.txt.copy.txt
cp: missing destination file operand after 'original.txt.copy.txt'
Try 'cp --help' for more information.

pranathi@kali:~$ ls
Desktop          original.txt
Documents        Pictures
Downloads        Projects
ethicalhacking   Public
index.html       sample.txt
Music            Templates
new.txt          Videos
```

3. LS COMMAND

Command:

ls

Use:

The ls command is used to display the files and directories in the current directory.

```
(pranathi@kali)-[~]  
$ ls  
Desktop      Music        Public  
Documents    new.txt      sample.txt  
Downloads    original.txt Templates  
ethicalhacking Pictures  
index.html   Projects
```

Result

Thus, the cd, cp, and ls commands were successfully executed in Kali Linux and their results were displayed.
