

EXERCISE – 6

Question

Execute and display the results of the following commands in Kali Linux Operating System:

1. touch command
2. pwd command
3. wget command

Aim

To execute and display the results of the touch, pwd, and wget commands in Kali Linux.

1. TOUCH COMMAND

Command:

touch sample.txt

Use:

The touch command is used to create a new empty file.

```
pranathi@kali: ~  
Session Actions Edit View Help  
(pranathi@kali)-[~]  
$ touch sample.txt  
  
(pranathi@kali)-[~]  
$ ls  
Desktop          Music             Public  
Documents        new.txt          sample.txt  
Downloads        Pictures          Templates  
ethicalhacking   Projects         Videos
```

2. PWD COMMAND

Command:

pwd

Use:

The pwd command is used to display the current working directory.

```
(pranathi@kali)-[~]  
$ pwd  
/home/pranathi
```

3. WGET COMMAND

Command:

wget https://example.com

Use:

The wget command is used to download files or web content from the internet.

```
