

EXERCISE – 10

Question

Execute and display the results of the following commands in Kali Linux Operating System:

1. free command
2. sort command
3. history command

Aim

To execute and display the results of the free, sort, and history commands in Kali Linux.

1. FREE COMMAND

Command:

free

Use:

The free command is used to display the memory (RAM) and swap memory usage of the system.

```
(pranathi@kali)-[~]
$ free
              total        used        free      shared  buff/cache   available
Mem:           4011596       1636724       1260736       106848       1467484         2374872
Swap:          2186236           0           0           0           0         2186236
```

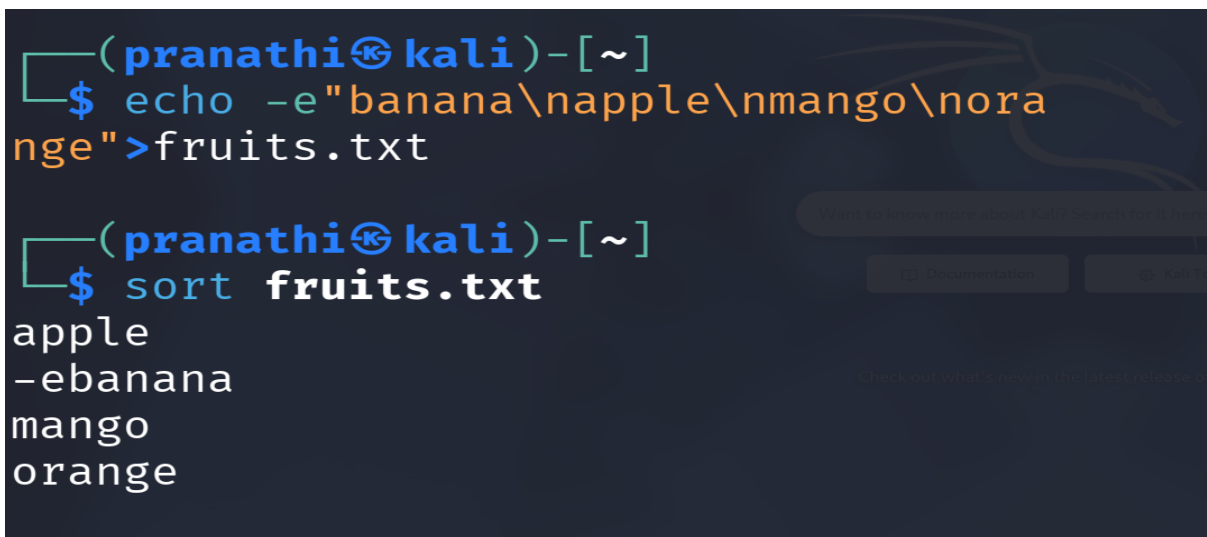

2. SORT COMMAND

Command:

```
sort fruits.txt
```

Use:

The sort command is used to arrange the lines of a text file in alphabetical or numerical order.

A terminal window screenshot with a dark background. The prompt is (pranathi@kali)-[~]. The first command is \$ echo -e"banana\napple\nmango\norange">fruits.txt. The second command is \$ sort fruits.txt. The output of the sort command is displayed as apple, -ebanana, mango, and orange.

```
(pranathi@kali)-[~]  
$ echo -e"banana\napple\nmango\norange">fruits.txt  
  
(pranathi@kali)-[~]  
$ sort fruits.txt  
apple  
-ebanana  
mango  
orange
```

3. HISTORY COMMAND

Command:

```
history
```

Use:

The history command is used to display the previously executed commands in the terminal.

```
(pranathi@kali)-[~]  
└─$ history  
1 touch test.txt  
2 rm test.txt  
3 is  
4 ls  
5 touch test.txt  
6 ls  
7 rm test.txt  
8 ls  
9 users  
10 kali  
11 tree  
12 touch test.txt  
13 ls  
14 rm test.txt  
15 ls  
16 users  
17 tree  
18 echo "welcome to ethical hacking lab">sample.txt
```

```
ng lab">sample.txt  
19 less sample.txt  
20 more sample.txt  
21 vi sample.txt  
22 tree  
23 echo -e"Line 1\nline 2\nline 3\nline 4\nline 5\nline 6\nline 7\nline 8\nline 9\nline 10"> sample.txt  
24 head sample.txt  
25 tail sample.txt  
26 ls  
27 echo "welcome to ethical hacking lab">sample.txt  
28 cat sample.txt  
29 mkdir ethicalhacking  
30 ls  
31 uptime  
32 date  
33 touch old.txt  
34 mv old.txt new.txt  
35 ls  
36 touch sample.txt
```

```
Session Actions Edit View Help
39 wget https://example.com
40 ls
41 pwd
42 cd documents
43 pwd
44 cd ~
45 touch original.txt
46 cp original.txt.copy.txt
47 ls
48 nmap -sv 127.0.0.1
49 nmap_sv 127.0.0.1
50 nmap -sV 127.0.0.1
51 nmap -A 127.0.0.1
52 sudo nmap -0 127.0.0.1
53 nmap -T2 127.0.0.1
54 nmap -T3 127.0.0.1
55 nmap -T3 127.0.0.1
56 free
57 echo -e"banana\napple\nmango\n
orange">fruits.txt
58 sort fruits.txt
```

Result

Thus, the free, sort, and history commands were successfully executed in Kali Linux and their results were displayed.
